1. Prologue/ Introduction of the programme:

The proposed curriculum intends to enhance the existing syllabus, make it contextual as well as applicable, and incorporate all the latest changes in the national economy. The board examined the shortcomings of the existing syllabus and expressed the need to change it. While doing so, the board analyzed other curricula of existing colleges in respective subjects in terms of content, relevance, quality, and pattern of teaching that has been synthesized in the present proposal. While framing the draft of the syllabus, guidance from industry experts and professionals were taken.

The present era is that of structural transformation, especially within the country. Moreover, the fast-changing international scenario and approach of other countries towards our human resource makes it mandatory for the educational system to impart the latest knowledge to our students. They are prepared to merge themselves in the

challenging economic and corporate environment. Hence, a change in the paper and restructuring of the syllabus becomes imperative. The syllabus needs to be holistic. It should be contextual and clear the basics of economics but also teach application of the theories in day-to-day life. In the modern world, competition is an inseparable part of our lives. To inculcate a competitive spirit among the students, the syllabus should include all the recent advancements within and out of the country with their pros and cons.

2. Programme Outcomes (POs):

Students enrolled in the program complete a curriculum that exposes and trains students in a full range of essential skills and abilities. In addition, they will have the opportunity to bachelor the following objectives.

1. To familiarize the students with the recent developments in the Indian economy.
2. To provide the students with the background of the Indian economy with a focus
3. on contemporary issues like the economic environment.
